### GI CARE TIPS FROM COMBAT CORNER

- ◊ Wash your gi after every class using a good quality detergent.
- ◊ Wash your gi by itself in cold water to help prevent it from shrinking or losing shape.
- ◊ If your gi has patches, before putting your gi in the washing machine, turn it inside out.
- ◊ To remove stains, it's best to presoak your gi in cold water as soon as possible.
- ◊ Adding ½ cup of vinegar to your presoak will help remove unpleasant odors.
- ◊ Let your gi air-dry on a sturdy hanger in a well-ventilated space.
- ◊ Do not leave your gi unwashed in your gym bag; this can cause the fabric to break down over time.
- ◊ Never use bleach, fabric softeners, or hot water on your gi.

CARE AND SIZING INSTRUCTIONS

All Fuji Gis are preshrunk. However, this does not mean your gi will not shrink. We recommend cold wash and hang dry; with this method your gi will only shrink up to one inch. Do not bleach. If your height and weight fall into different size categories, we recommend you choose the larger of the two sizes. Items can be returned as long as they have not been washed or worn for practice.
